MONEY, BONDS AND STOCKS.

An Active and Strong Market to New York, Closing at the Best Prices of the Day. NEW YORK, Sept. 28.-Money on call was easy at 224 per cent., the last loan being made at 3, closing offered at 1 per cent.

Prime mercantile paper, 51 @ 71 per cent. Sterling exchange was quiet and weak, with actual business at \$4.831 for sixty-day bills, and \$4.874 for demand.

The total sales of stocks to-day were 366,405 shares, including the following: Canada Southern, 16,865; Delaware, Lackawanna & Western, 5,330; Erie, 5,324; Lake Shore, 35,170; Louisville & Nashville, 8,595; Michigan Contral, 6,800; Missouri Pacific, 23,925; Northwest-* ern, 17,055; New Jersey Central, 4,140; Northern Pacific preferred, 4,500; Oregon Transcontinental, 14,160; Pacific Mail, 4,085; Reading, 18,540; Richmond & West Point, 5,580; St. Paul, 44,862; St. Paul & Omaha, 5,040; Texas Pacific, 5,750; Union Pacific, 23,605; Western

Union, 15,395. The stock market was again very active and strong all the way out to-day, and, though the result of the day's transactions is to leave most of the list but fractionally changed from last night's figures, the Vanderbilts, the Gould stocks and the specialties displayed marked strength and imparted, at times, a buoyant tone to the list. Contrary to the expectations of the "bulls," London was a seller to a considerable extent in this market to-day, and that fact dampened the confident feeling somewhat, and there was throughout the day free liquidation of "long" accounts which prevented the general list from advancing much. The heavy sales of New England were also a serious clog on the bullish temper of the room. The traders were generally ranged upon the side of higher figures, and the expected important meeting of trunk line officials today to adjust rates was a stimulant to the trunk line stocks, and the Vanderbilts especially were very active and strong. Lake Shore, Canada Southern, Michigan Central, New York Central and Nickel-plate stocks all made handsome gains, which were held to the close, The Gould stocks were more prominent than for a long time, and the inference is that Mr. Sould is taking a more active hand in their affairs. It was again reported that the Missouri Pacific had secured the St. Louis, Arkansas & Texas, and Missouri Pacific stock responded with a rise of 21 per cent, while the other Gould stocks and the St. Louis, Arkansas & Texas securities all advanced materially. A few other specialties displayed marked strength, and Chicago & Eastern Illinois, Manitoba, Chicago, St. Louis & Pittsburg, and some of the Southern stocks made advances. The coal stocks were active once more, but with the grangers they were sluggish and moved within a narrow range throughout the day. New England was forced off over a point, but recovered to within a small fraction of its last night's price at the close. The opening sales were made at advances extending to 1 per cent, though St. Paul was a marked exception, with a loss of per cent. The market was quite irregular and feverish with a gradual upward tendency, though Omaha was strong and New England weak in the early tradings, and after a fractional advance the entire list retired to below the opening figures. Under the lead of Missouri Pacific, however, the losses were regained, though no further progress was made in either firection until afternoon. The Vanderbilts then became the leading features, but the fluctustions still continued to be slight, though the advance was continuous until the last hour, when the realizations sagged many stocks off slightly. The close, however, was active and strong at the best prices of the day. Missouri rose 24; Canada Southern, 12: Lake Shore, 12; Chicago & Eastern Illinois preferred, and Manitoba, 11 per cent. each, and the others fractional amounts.

The railroad bond market was also active and showed considerable strength in spote, though the declines are few and generally unimportant. The feature of the trading was the Ft. Worth & Denver firsts, which were largely traded in at advancing prices. St Louis, Arkansas & Texas bonds were belped by the reported alliance with the Missouri Pacific, the seconds being especially strong. The Texas Pacific seconds were very active and furnished \$246,000 out of the total day's business of \$2,129,000. The principal advance was in St. Louis, Arkansas & Texas sec-

Government bonds were quiet and steady. State bonds dull and featureless. Closing quotations were:

CHICAGO, Sept. 28.—The wheat pit was again the centre of attraction to-day. The attendance was unusually large. The early session was noticeable for activity, and large business was transacted in all the various futures within a high range of prices. A desperate offort was made to break prices, and the raid proved partly successful, excepting for the September future, which ruled stronger, and another 25c per bu was added to the advance of yesterday, at which figure that future was held. The opening for September wheat was the same as the closing yesterday, and by 5s jumps prices struck \$1.50, at which figure the market rested, and at noon the trader who had control of the market appeared to effect settlements on that basis. opening for deferred futures was about lo higher than yesterday's closing, and prices were further advanced about 1 2 to for December and May, but liberal speculat offerings acted as bulwark against A her advance, and it developed that a raid w: be made on these deliveries. The offerit were liberal enough to cause a break of lie. 1 October future in the mean time declining Dic. The weakness was assisted some by the report that some wheat was being shipped from St. Louis; also, by a rumor that wheat was en route from other points to Chicago. From the decline noted the market reacted | @ fc, but became weak again and finally settled off ic more very quickly, ruling weak and closed 2c lower for October, to lower for December, and to lower for May than the closing figures yesterday. Trading in corn was quite general, and the market was very active most of the session, a higher range of prices being established. The market opened about to better than it closed yesterday, was steady for a time, then advanced a full cent, reacted le, again advanced te, and closed with October te, November lie and May to higher than yesterday. There was pretty general selling of October and buying of November, there being a feeling prevalent that the latter month is going to sell at a premium over the former. There was an active demand from "shorts" and other sources, and the feeling altogether was firmer than for some days. A heavy local operator was credited with selling about 1,000,000 bushels of October. Shippers are also buying cash and selling October. Oats were neglected and without fluctuations to speak of. Mess pork was active, unsettled and higher. Prices covered a wide range. Early the offerings were small. Opening sales were at \$1 advance for October. It sold up to 60c, but broke 50c on selling by a large backer, rallied 5c, but closed weak. November and January were freely traded in, but fluctuations were confined to a moderate range. Lard was in fair demand and higher. There was no pressure to sell at the opening, and first sales were at .05 @ .07 cadvance, sold up .10 @ .20c on the near futures, receded slightly, and closed easy. The long futures were offered quite freely toward the close, and about all the early advances disappeared. Short ribs were actively traded in early in the session, and prices ad vanced rapidly. The market opened .02; @.07;0 higher, advanced .674 @ 10c. receded .05@.074c.

DUN & CO.'S REVIEW.

Present Condition of Crops and Business-Increase in the Number of Failures.

NEW YORK, Sept. 28.-R. G. Dun & Co.'s weekly review says: Doubt about the corn crop has vanished. Estimates vary either way, but it is doubtless the largest crop ever raised. The increase of more than 550,000,000 bushels in this crop far outweighs in value any loss in the yield of wheat, and also any possible loss in the yield of cotton. But the yield of oats is also the largest on record, and the yield of hay and potatoes excellent. It is safe to say that this year's agricultural products will represent at least one hundred millions more money than last year's, and average prices for both. Trade has been checked by artificial prices. A corner in wheat put the price for September to \$1.25 at Chicago, only Thursday, the rise here being five cents for the week. Seaboard prices have, for some time, been relatively too high for foreign

The demand for cotton goods is slow and conservative. Print cloths have declined to 3.77 cents, and the market is more moderate daily. Speculation in wool has checked the manufacturing demand, and, while the supply is short, the pressure of foreign goods at low prices prevents an advance in prices by producers here. In pork products prices have yielded but little, and packing falls much behind last year's. Corn has fallen but I cent, notwithstanding the great yield. At Kansas City the market for cattle is overstocked, and prices are so low as to check movement. The boot and shoe trade is large. The iron market is stronger at Philadelphia, but weaker at Pittsburg. Southern, No. 1, is quoted at \$18.10 here. No improvement appears in steel rails, of which 18,000 tons were sold, mainly by Western mills, their \$30 being relatively lower than the current price (\$28) at Eastern mills.

During the past week the stock market has been stronger, gaining nearly a dollar per share on the more active stocks, but the advance has been mainly due to the covering of "short" sales, and much realizing by foreign holders is reported. The reports from interior points are uniformly hopeful. The cotton crop is about three weeks late, and forwarding is delayed by the stoppage of traffic. At all Western points beyond the danger of fever, business is reported good or improving, though more complaint of slow collections is heard. Money is generalty in ample supply, but atringency increases at Cleveland, and the demand is strong at St. Louis and Milwaukee. Kansas City reports loans paid with unusual regularity, and money is easy at Omaha. The exchanges for the week show a gain over last year of 6 per cent. outside of New York. August imports exceeded exports by \$11,671,352,

States, against 644 last year. The business failures for the week are 220; for the corresponding week of 1887, 195.

TRADE IN GENERAL.

Money is generally in ample supply, but atringency increases at Cleveland, and the demand is strong at St. Louis and Milwaukee. Kansas City reports loans paid with unusual regularity, and money is easy at Omaha. The exchanges for the week show a gain over last year of 6 per cent. outside of New York. August imports exceeded exports by \$11,671,352, and the excess for eight months was \$87,420,928. The exports for the past four weeks have been 4 per cent. below last year's, with imports equal to those of 1887. The Treasury continues to supply money freely by purchases of bonds, taking nearly \$2,000,000 on Thursday, and its disbursements for the week have exceeded its receipts by \$4,200,000. The fact that failures continue in large numbers for the season is not to be overlooked, Sep-	ket dull and slow sales at quotations; few held over for to-morrow.

INDIANAPOLIS MARKETS.

An Easier Tone to Prices on Several Articles -Trade Active. INDIANAPOLIS, Sept. 28.

In some departments prices do not rule as firm as a few days ago. This remark will apply to groceries, for instance. Both coffees and sugars. although quotably unchanged, are weak. East the same is true of canned goods, which promise to be more abundant than for many years. Coming to the dry goods market, the usual firmness to prices is noticeable and trade active. The New York Bulletin, however, speaks of there being an easier tone to the dry goods market, and a majority of the buyers continue the same hand-to-mouth policy of making their purchases, which has been noticeable of late. The Bulletin says: "The tone of the market for print cloths was easier and prices have fra ctionally declined, but in other respects values of staple and patterned cotton goods are without quotable change. Colored cottons are somewhat unsettled, and slight concessions upon 'off-style' prints and ginghams can readily be obtained by buyers of 'round lots,' but most kinds of plain cottons and really desirable makes of printed calicoes, sateens and other printed cotton dress fabrics, etc., are generally arm at current quotations. For obvious reasons collections in some of the Southern States are a trifle backward, but distributers in other sections of the country are in most cases meeting their obligations with commendable promptitude." The produce markets are active. Apples and potatoes in good supply but a shade ormer. Receipts of peaches and pears light; prices advancing to their tendeucy. The poultry market East is easier. In this market there is a quarrel going on between the packers, and to one set of customers some of them will pay 94 cents a pound for bens and chickens while to others they will pay but 9 cents. Eggs firm and m good demand at quotations. Butter more plenty and weaker in price. The provision market roles steady, and prices are unchanged. The bide market is less active than in the early part of the month. Firm prices ruled in the seed market and trade is good.

There was a good attendance on 'Change today, and the bidding was an improvement over that of either of several days past. Wheat, however, was unsettled but firm on moderate offerings. Corn was offish and little wanted. except for local consumption. Oats in fair de-

	mand at the range of prices of several past. Track bids ruled as follows:	day

A Divine Experiment.

Boston-Transcript And that reminds the Listener of another true story, about a little girl who was walking the other day with her governess. They met a man with a club foot, at whom the child looked a little wonderingly as be passed, and then laughed. "You must not laugh at him said the governess."

"Why not." "God made that man." "Hamph!" said the child, "It must have been" the first man he made!"

A Slight Misunderstanding.

Chicago Tribune "I am obliged to you, Mr. Cahokia," said the young lady from Boston; "I will go with you to the theater to-morrow evening if you wish, but not to-night. Have you forgotten," she continued, softly wiping her spectacles, "that this is the eighty-fifth anniversary of Emerson's birth? I cannot desecrate it. Please do not press me, Mr. Cahokia."

"I-I wasn't pressing you, Miss Howjames!" gasped the St. Louis young man, retreating to the other end of the sofa.
